

ESSENTIAL TESTING FORM

CIRCLE OF LIFE EYECARE CENTER

ESSENTIAL TESTING

Non-invasive digital scans, imaging, and other advanced measurements to help pinpoint your vision needs.

TESTS WE OFFER:

- RETINAL/MACULA IMAGING
 - VISUAL FIELD
 - BLUE LIGHT TESTING
 - EYE Q/READING TESTING
-

WHY SHOULD YOU BE TESTED?

This thirty-minute series of tests can detect early signs of eye diseases such as glaucoma and macular degeneration as well as eye complications from common health issues like diabetes, high blood pressure, and many thyroid diseases. The results can also measure eye damage from UV rays and harmful blue light while assisting in the diagnosis of digital eye strain and reading/learning related eye conditions. By monitoring the progression of these eye conditions, we can effectively treat them.

EACH INDIVIDUAL TEST IS PRICED AT \$45.00 EACH, BUNDLE DISCOUNT AVAILABLE FOR TWO OR MORE TESTS.

TESTS MAY BE COVERED BY MEDICAL INSURANCE.

Here at Circle of Life Eyecare Center, we value each patient's commitment to the health and wellbeing of their eyes. By electing to take these tests, you are making a conscious effort to be a step ahead of any future eye problems that might arise in your life.
